

Parks and Open Space

Walkways, promenades, paseos and bike trails will connect all areas of Hollywood Park, encouraging residents to adopt a more active lifestyle and enjoy the beautifully-landscaped setting. Four parks totaling 25 acres will feature dog parks, tot lots, volleyball courts, jogging and hiking trails and open playing fields. The majority of these parks will be available for both residents and members of the greater Inglewood community to enjoy.

Champion Park

With its mix of spacious lawns and formal gardens, Champion Park reflects the character of renowned urban spaces such as Bryant Park in New York City. There will be ample open space for picnics, casual games and community events, while terraced gardens will incorporate flowering shrubs and perennials. A seating plaza, barbecue pavilion and game tables will line the southern end of the park.

Lake Park

This central public open space of the new Hollywood Park community connects the retail plaza, Arroyo Park and adjacent residential neighborhoods in an attractive natural setting. From overlooks and a pier to a lakefront plaza and walking paths, there will be numerous opportunities to enjoy a lake with a dramatic waterfall. This park features an active wetland that will provide a habitat for a variety of animal and plant species.

Lake Park will also include active recreational areas including a sand volleyball court, open lawns for picnic and play, and a children's playground. A bicycle path will encompass the perimeter of the central lake, which also serves as a sustainable storm water treatment system.

Arroyo Park

A network of crisscrossing walkways and trails enhances the space of this linear, meandering park with indigenous riparian landscaping. Arroyo Park will feature informal gardens, a nature education amphitheater, and a children's playground with naturalistic equipment. Residents and visitors will enjoy game tables, barbecue and picnic pavilions, bocce ball courts, putting greens and the water play area.

Bluff Park

Located at the eastern edge of Arroyo Park, Bluff Park will feature the most active recreational elements within the community, including an aquatics center, a small and large dog park and facilities for organized sports. The aquatics center will welcome residents through the historic Hollywood Park Turf Club entry pavilion and will include a junior Olympic-sized swimming pool, children's pool, spa and tennis courts. The public active space will showcase an open field for informal sports, a half basketball court, children's play equipment as well as picnic and barbecue pavilions.
